

# THE MANIFESTO

We are **Artisans**.

We Work with our Hands.

Our brainstuff always support us.

Sometimes we may make little mistakes.

Any single work that we produce contains mistakes and intuition.

We require Time... we need Time.

We need Time to think.

We need Tme to work.

We need Time to make our work better.

We need Time to finish.

Our lives and works are based on Our idea of **Beauty** that comes from who we ARE, who we WERE and who we WILL BE.

Inside our creations there is a hidden IDEA that borns in our HEART, raises in our MIND and, through our HANDS becomes something New and Unique, full of its own Energy. This energy is nourished by our SOUL, wich renews itself every time that something unique is created.

We are humans that work with their **Mind**, their **Hands** and their **Heart**.

We are People.

We are **La Bottega del Fabbro®**.
